

NAADUK sponsor the HVR Awards 2023

NAADUK are proud to announce that we are the headline sponsor of the HVR Awards 2023. It is a fantastic opportunity to showcase our drive to continue to support the ventilation industry as the largest ventilation hygiene association in the UK.

The HVR Awards will be presented in October, and we look forward to seeing all the dedicated individuals and companies across the Heating & Ventilation industry at the ceremony, hosted at The Chelsea Harbour Hotel.

Organised by Datateam Business Media, publisher of leading industry publication Heating & Ventilation Review, the HVR Awards have been championing innovation, excellence and achievement across the heating and ventilating industry for 10 years.

Sue Sharp, Director of Overclean, one of the NAADUK association members was awarded the 'Lifetime achievement award' in 2022 and we couldn't have been prouder to see such a committed individual recognised at such a high-profile event. NAADUK are sure that this year's winners across all the categories will be equally as deserving of their awards.

Entering the HVR Awards is a brilliant opportunity to showcase the products you're most proud of and those that have made the biggest difference to your customers. It is a great way to acknowledge the expertise, dedication and hard work of your entire team.

If you haven't already entered this year's HVR Awards, you only have until this Friday, 30 June to submit your entries.

Go to www.hvrawards.com to enter for the 2023 Awards ceremony.
